

Adriana Franchini

Taranto, Rome, Italy | +39 327 631 1523 | adry.f.af@gmail.com | linkedin.com/in/adriana-franchini

PROFESSIONAL SUMMARY

I am a detail-oriented Data Analyst with a Master's in Data Science and hands-on experience in SQL, Python, and Business Intelligence tools (Tableau, Power BI, Zoho Analytics). I analyze CRM, financial, and operational data to generate actionable insights that support corporate decision-making, and I build interactive dashboards and reports for internal stakeholders and clients. I bring a strong operations management background from the hospitality and sports coaching sectors, with proven transferable skills in team leadership, staff training, vendor and inventory management, client relationship management, and cross-functional communication. I am certified in Zoho Analytics, Data Protection (GDPR), and System Administration, with additional training in Machine Learning, Python, and Scrum methodology.

SKILLS

Hard Skills: SQL, Python (NumPy, Pandas, Scikit-learn), Machine Learning fundamentals, Data Visualization (Tableau, Power BI, Plotly, Matplotlib, Seaborn), PostgreSQL, Git, Jupyter, Anaconda, Zoho Analytics, Zoho CRM, Business Intelligence (BI), CRM Configuration, Business Analysis, Reporting and Dashboard Design, Data Protection and GDPR Compliance, Scrum/Agile Fundamentals, Google Analytics, Inventory and Vendor Management, HACCP Compliance

PROFESSIONAL EXPERIENCE

Data Analyst | CRM Partners | Italy | December 2024 – Present

- Analyze CRM, financial statement, and recruiting data to identify business trends, delivering actionable insights that support corporate decision-making.
- Design and build interactive reports and dashboards using SQL and Python, improving data accessibility and reporting efficiency for internal stakeholders.
- Train client teams on Business Intelligence tool adoption (Zoho Analytics), increasing client autonomy in data interpretation and reducing follow-up support requests.
- Configure CRM systems and support business analysis workflows, aligning platform setup with client operational requirements.
- Contribute to internal projects developing data-driven solutions that streamline corporate reporting processes.

Store Manager | Degustibuss Botteghe Italiane | Italy | 2024

- Led the opening of a new retail location, coordinating menu development, staff recruitment, and team training to ensure operational readiness.
- Managed supplier relationships, order planning, and inventory control, optimizing food cost efficiency.
- Oversaw delivery and POS platform operations, ensuring service continuity and customer satisfaction.
- Ensured full compliance with HACCP food safety standards across all store operations.

Chef / Kitchen Manager | Ramen Bar Akira | Italy | 2020 – 2024

- Directed kitchen operations and supervised cross-functional staff teams, sustaining high performance during high-intensity service periods.
- Managed vendor relationships, order planning, and pantry/inventory logistics to ensure consistent supply and cost control.
- Recruited, trained, and mentored kitchen staff, strengthening team capability and service quality.
- Monitored ongoing compliance with HACCP food safety regulations, reducing operational risk.

Coach & Personal Trainer | Roma X Training | Rome, Italy | 2021 – 2024

- Designed individualized and group training programs tailored to client goals and fitness levels.

- Delivered motivational coaching and constructive feedback, improving client performance and long-term retention.
- Adapted training methodologies to diverse client needs, demonstrating flexibility and client-centered problem-solving.
- Managed a varied client caseload through strong time-management and communication skills.
