PROFESSIONAL SUMMARY

BI Developer and Data Analyst with a background in Data Science. I build data models and dashboards in Zoho Analytics that bring CRM, helpdesk, project, HR and accounting data into a single decision-making view. As a Solution Consultant, I analyze client processes (AS IS → TO BE) and translate requirements into CRM configuration, on projects across retail, large-scale retail, infrastructure and education. I work with SQL, Python, data modeling and row-level security. My operations management background (teams, suppliers, cost control) shapes dashboards built for the people who have to act on the numbers.

SKILLS

Business Intelligence: SQL, Zoho Analytics, Power BI, Tableau, data modeling, KPI definition, dashboards and reporting, row-level security

Python: NumPy, Pandas, Matplotlib, Seaborn, Plotly, Scikit-learn, Machine Learning fundamentals

Data & tools: PostgreSQL, data cleaning, CRM data migration, Jupyter, Git, Anaconda, Google Analytics

Zoho platforms: Zoho CRM, Zoho Analytics, Zoho Desk, Zoho Projects, Zoho People, Zoho Books, Zoho Campaigns

Consulting: AS IS → TO BE process analysis, requirements gathering, CRM configuration, business analysis, user training, Scrum/Agile, GDPR, prompt engineering

Soft skills: Analytical thinking, problem solving, client communication, team leadership and training, time management, resilience under pressure

PROFESSIONAL EXPERIENCE

BI Developer & Solution Consultant | CRM Partners | Italy | December 2024 – Present

- Run AS IS → TO BE process analyses with client stakeholders and translate requirements into Zoho CRM configuration, on projects across retail, large-scale retail, infrastructure and education.
- Design data models and dashboards in Zoho Analytics integrating Zoho CRM, Desk, Projects, People, Books and Campaigns to analyze sales, marketing, support, HR, recruiting and finance.
- Build cross-module SQL Query Tables (hours from Projects, costs from Books, revenue from CRM) to calculate project margins in real time, replacing manual reconstruction in Excel.
- Solve data modeling issues such as fan-out on one-to-many joins, and implement row-level security based on the logged-in user.
- Mapped a project tracking system built on 11 Excel worksheets into 4 macro-areas for platform migration, estimating an effort of 15–22 person-days.
- Manage data migrations into Zoho CRM: data cleaning, field mapping and import.
- Built two internal AI assistants using prompt engineering for pre-import file cleaning and query/formula support, turning data preparation into a self-service step for the team.
- Train client teams on Zoho Analytics, making them autonomous in reading their data and reducing support requests.

Store Manager | Degustibuss Botteghe Italiane | Italy | 2024

- Led the opening of a new store: menu development, staff recruitment and training, operational launch.
- Managed suppliers, orders and inventory with food cost control; oversaw delivery and POS platforms.

Chef / Kitchen Manager | Ramen Bar Akira | Italy | 2020 – 2024

- Coordinated the kitchen team during high-intensity service; recruited, trained and mentored staff.
- Managed suppliers, orders and inventory to ensure consistent supply and cost control; HACCP compliance.

Coach & Personal Trainer | Roma X Training | Rome | 2021 – 2024

- Designed individual and group training programs tailored to client goals and fitness levels.
- Managed a varied client portfolio with ongoing coaching and feedback, improving performance and retention.

EDUCATION

Data Science Master Program (professional course) | Start2Impact University | Mar 2024 – Oct 2024

- Data Analysis (SQL, Python: NumPy, Pandas), Data Visualization (Matplotlib, Seaborn, Plotly, Tableau, Power BI), Machine Learning (Scikit-learn), PostgreSQL, Git, Jupyter.
- Projects on GitHub: github.com/adry135

Master's Degree in Sport Management and Physical Activity, Wellbeing Track (in progress) | Università Telematica Pegaso

Bachelor's Degree in Sport Science | Università San Raffaele | March 2024
